White	176	184	177	161	170
Low Income	348	306	310	256	304
Not Low Income	177	167	197	206	220

ABOUT THE DATA

These data should be interpreted with caution as there are gaps and limitations in the dataset. Data are based on estimated count; some data were suppressed and not included to protect student privacy. Numbers and percentages have been rounded to the nearest whole number. Data Source: VDOE PALS-K 2012–2016, pulled January 2018.

To preserve student anonymity, data for student subgroups of fewer than 10 ($n < 10$) are not reported. School districts have access to this data and are encouraged to examine it if they are interested in a more detailed exploration of achievement gaps.
